# RW - SCHEDULE 74

## INSTRUCTIONS - REPORT OF RECOVERED WATER

Note: If any information pre-printed on this form is incorrect, please make the necessary corrections.  
For information not already pre-printed on this form, please follow the directions below.

1. Enter DWR well registration number, if not already shown, in column 1
2. Enter the water storage permit number in column 2 under which recovery occurred (for recovery pursuant to long-term storage credits, enter the water storage permit no. under which the water storage originated).
3. Indicate in column 3 whether the water was stored at an underground storage facility (USF) of a groundwater savings facility (GSF).
4. Indicate in column 4 if the well has other withdrawal authorities associated with it (e.g. service area, Type 1 or 2, etc.).
5. Enter the total volume and type of water recovered annually in column 6 (i.e., water stored and recovered within the same calendar year pursuant to A.R.S. § 45-851.01).
6. Enter the total volume and type of water recovered pursuant to long-term storage credits in column 7
7. Enter the total volume of water recovered pursuant to each water permit for each well in column 8
8. Sum the total for each water type recovered pursuant to annual and long-term storage credits and enter in column 9
9. Enter the total volume of water recovered annually in box 10 and transfer to Part 1.A of the RW-Summary. Enter the total volume of LTSC recovered in box 11 and transfer to Part 1.B of the RW-Summary. Enter the sum of 10 and 11 in box 12 and transfer to Part 1.C of the RW-Summary.
